

## Product Offerings

- Driveline** ICII carries a full line of Driveline and Power Transmission products for your irrigation needs. This includes the UMC product line, the World's leader in Power Transmission Excellence, in a variety of speeds and gear ratios. We also provide drive shafts, knuckles & couplers, and more...
- Electrical Controls** Our Hydrus electrical shop manufactures controls for a variety of irrigation systems and styles, both center pivot and linear. Proudly made in the USA of premium quality components from manufacturers such as: GE, Benedikt & Yager, Eagle Signal/Danaher, & more... We also carry individual electrical components for your machines.
- Cable & Wire** Your place for the highest quality cable and wire, from span cable to underground power cable. Produced for us by Prysmian & Draka in the U.S.A.
- Sprinklers** We carry the industry's best sprinkler products from Senninger Irrigation and Komet End Guns.
- Flow Meters** Take the monitoring of your center pivot or linear machine to the next level with Electromagnetic Flow Meters from Seametrics, Inc. Based in Seattle, WA and in the flow measurement business for over 25 years, their experts build their products proudly in the U.S.A. We also carry a line of Ultrasonic flow meters for testing and propeller flow meters.
- Tires & Wheels** Whether you are looking for traditional irrigation tires, oversized tires, or non-pneumatic tires, ICII has the tire and wheel solution that you need.
- Water Drive Conversion** Let Hydrus and ICII design the conversion of your old water-driven machine to an energy efficient electric machine. We have experience in conversion of Kuban and Fregat machines, amongst other. Our technical staff will assist you in designing the conversion kit that is right for your application.
- Remote Pivot Control** Control your pivot anywhere in the world through our web portal and online controls.
- FarmLand Fabrication** Through our fabrication division, we can assist you in creating fittings and structure for all of your needs.

# All That You Need...
