Sprinkler Lube® Releases New Product

Sprinkler Lube Pivot Point Gun Grease

is designed for use in the center pivot point and corner/swing arm bushings. Pivot Grease can also be used in other bushing applications such as “Bender Joint” bushings.

FEATURES:

- Carries Heavy Loads
- Resists Water
- Stays where you put it

BENEFITS:

- Stops Pivot Point Popping
- Pivot Point Grease won't break down
- Lubricates bushings longer

**Pivot Grease should not be used in bearings, with the exception that it may be used in the bearings of steering gearboxes that are used on a swing arm corner system, that have a grease zerk in them.

Product is available in:

- 14.1 oz tubes (sold in 10 packs)
- 120 lb Kegs

**Advantages of Pivot Point
are protection against:**

- Pivot Popping
- Resolver & Encoder Problems (Alignment Due to Pivot Pop)
- Costly Downtime
- Crop Loss
- Equipment Operational Problems
- Component Wear
- Vibrations
- Water Washout
- Extreme Pressure
- Friction
