PRODUCT OFFERINGS

Driveline - ICI carries a full line of Driveline & Power Transmission products for your irrigation needs. Our own ICI Gears products, manufactured under ICI's strict quality control, gives our customers the knowledge of putting years of proven engineering and design on their machines.

Electrical Controls - Our Hydrus electrical shop manufactures controls for a variety of irrigation systems and styles, both center pivot and linear. Proudly made in the USA of premium quality components from manufacturers including GE, Benedikt & Jager, Eagle Signal/Danaher and more. We also carry individual electrical components for your machines.

Cable & Wire - Your place for the highest quality cable and wire, from span cable to underground power cable. Produced for us, by Prysmian & Draka in the USA.

Sprinklers - We carry the industry's best sprinkler products from the leading manufacturers.

Flow Meters - Take the monitoring of your center pivot or linear machine to the next level with Electromagnetic Flow Meters from Sparling and other reputable companies.

Tires & Wheels - Whether you are looking for traditional irrigation tires, oversized tires or non-pneumatic tires, ICI has the tire and wheel solution that you need.

Water Drive Conversion & Machine Upgrade/Retrofit - Let Hydrus Controls design the conversion of your old water-drive machine to an energy efficient electric machine. Our technical staff will assist you in designing the conversion kit that is right for your application. We can also assist in upgrading old electric machines to make them more efficient.
